I've got a course with 3 groups

- **Group 0001**
    - Hubert Borderiou
    - hubertetu borderiouetu
  - **Group 0002**
    - guillaume fosset
  - **Group 0003**
    - hubertetu02 borderiouetu02
- 

I log as student *hubertetu02 borderiouetu02* and I go in the group document tool of each group. I go in *Group 1*, where a user has created some folder, and I see them well

The screenshot shows the document tool interface for a course. At the top, a breadcrumb path reads: [My Borderiou course](#) / [Groups](#) / [Group area Group 0001](#) / Documents. Below this is a search bar with a magnifying glass icon and a search button. The 'Current folder' is set to 'Documents', with a dropdown menu open showing 'Documents', '— Boretu folder', and '— my etu vidéo'. The main content area displays a table of files:

| Type  | Name ↑        |
|---|---------------|
|  | Boretu folder |
|  | totoro        |

I go in *Group 2*, and I see a folder *hubertetu borderiouetu* in the folder list. And *borderiouetu* is not a member of this group.

If I go in this folder I've got the error

Sorry, you are not allowed to access this page, or maybe your connection has expired. Please click your browser's "Back" button or follow the link below to return to the previous page.

I go in *Group 3*, and I see a folder I have created and a folder of my username *borderiouetu02* but if I go in it I've got the same error as above.
