### Description

Hi,

I've found a new way to have wong arrows on the Organize tool for Learning Paths.  
I think it is the main reason why teachers have problem with Learning Path-organization -arrows.  
(eventually more than frantic clicking I hope)

Sometime, the Positioning menu, when you add a LP Object or a section, is wrong, and, nethertheless, if you add the ressource, you have an arrow error. I guess, error too on the database on Previous\_item, Next\_item fields.

See attached screencast (2') to see how to reproduce this issue.

### History

Fix :  
to prevent this issue, edit file  
/main/newscorm|learnpath.class.php  
and replace every

```
if ($arrLP[$i]['parent_item_id'] == $parent
```

with

```
if ($arrLP[$i]['parent_item_id'] == $parent_item_id
```

and it works fine.

There are 8 of them, in functions  
display\_quiz\_form  
display\_hotpotatoes\_form  
display\_forum\_form  
display\_thread\_form  
display\_item\_form  
display\_document\_form  
display\_link\_form  
display\_student\_publication\_form

Still some problem with it...

It corrects this issue but seems to add some :s

I'm still working on it

I will keep you informed

**#7 - 18/05/2010 12:58 - Julio Montoya**

Thanks for the clear screencast... I will check this one. Hope to find something.

**#8 - 18/05/2010 14:43 - Julio Montoya**

I found an error when selecting a document the parent id is set to 0.

For me seems to work...

**#9 - 20/05/2010 10:18 - Hubert Borderiou**

Seems to be fine for me too with both modification... nice ^^

**#10 - 20/05/2010 11:08 - Julio Montoya**

- Status changed from Needs more info to Bug resolved

good job
