Complexity: Normal	SCRUM pts - complexity: ?

Description

Hi,

a teacher warn me he don't see anymore (since 1.8.6.1) HotPotatoes test result of his tests on the test tool.
See attached screencopy from dokeos1.8.5

It doesn't work too for chamilo 1.8.7

I can see hotspot result if I insert my test in a Learning Path, but I have to look for each user, and results aren't displayed one line for each user on the same page, moreover, lots of tests were made from previous version by teachers in the test tool, and that's a loss of ascendind compatibility.

Edit file main/exercice/savescores.php
and replace

```
[72] $user_id = "".$_user['user_id']."";
```

with

```
[72] with $user_id = $_user['user_id'];
```
