I think this code is still used in the documents tool (when editing a document, see below, the link "Edit metadata"). If still used, it should be left alone. If not, we can probably remove it, yes.

Revision 02144c80 - 03/05/2014 13:21 - Julio Montoya
Removing metadata see #1370

Revision b92cc2d1 - 03/05/2014 13:28 - Julio Montoya
Removing metadata calls see #1370

Remove metadata code see #1370

Revision b3e76394 - 18/04/2015 02:10 - Yannick Warnier
Remove metadata edition page link - refs #1370

History
#1 - 28/05/2010 15:08 - Julio Montoya
  - Target version set to 1.8.7.1

#2 - 21/07/2010 19:27 - Yannick Warnier
  - Target version changed from 1.8.7.1 to 1.8.8 stable

#3 - 06/02/2011 22:47 - Yannick Warnier
  - Priority changed from Normal to Low
  - Target version changed from 1.8.8 stable to 1.8.8.4
  - Estimated time set to 1.00 h
  - SCRUM pts - complexity changed from ? to 5

I think this code is still used in the documents tool (when editing a document, see below, the link "Edit metadata"). If still used, it should be left alone. If not, we can probably remove it, yes.

#4 - 25/07/2011 09:33 - Yannick Warnier
  - Target version changed from 1.8.8.4 to 1.9 Stable

#5 - 22/12/2011 15:43 - Julio Montoya
  any idea why we maintain that code ...

#6 - 01/05/2012 20:33 - Yannick Warnier
  - Target version changed from 1.9 Stable to 1.9.2
The metadata folder has very old code. And it seems that is not used anymore. It should be removed.

I'm removing this code (in my doctrine branch).

It still works. There is value in that code (or at least in the data it stores). Can we agree to remove the code but leave the database tables there for now? (so that if someone upgrades, they don't loose their data and can develop something new on top of that)

Ok, I won't drop the table.

Make sure you don't forget to remove the links from the document edition screen and the links edition screen (I think these are the only places where this tool is accessible still). I'm putting a "System" category because it's kind of a structural change.

Already done in my doctrine branch. I will do a merge

- Target version changed from 1.9.2 to 2.0
- Status changed from New to Needs testing
- % Done changed from 0 to 100
- % Done changed from 100 to 80
- Status changed from Needs testing to Needs more info
- Target version changed from 2.0 to 1.10.0
- Status changed from Assigned to Needs testing
- Assignee deleted (Julio Montoya)

18/03/2022
There was still a metadata edition link in the link creation form. Please be more careful when removing things. I mentioned it in comment 14 as well...

Fixed in https://github.com/chamilo/chamilo-lms/commit/b3e76394df905656cfa62d843224217c5af-b0fa

- Status changed from Needs testing to Feature implemented
- Assignee set to Julio Montoya
- % Done changed from 80 to 100

Metadata removed!
