Category:		Estimated time:	3.00 hours
Target version:	3.0	Spent time:	0.00 hour
Complexity:	Normal	SCRUM pts - complexity:	8
Description			
There is no e-mail check so a single e-mail address can be used to register an infinite number of accounts.			
Edited by Yannick:			
<ul style="list-style-type: none">• add registration_email_check to settings_current• add the following language variables• RegistrationEmailCheckTitle: Check e-mail address on registration• RegistrationEmailCheckComment: When auto-registration is allowed, make sure an e-mail is sent to the user to confirm his e-mail address, by providing a "confirmation link" to click on. The user account will not be enabled (give it a new "active" value of "3", I guess) until the (unique) link is loaded.• create two new icons (there are already 3 I think: disabled, disabled for time reasons and enabled): one for "Waiting for admin approval" (UserHeldUntilAdminApproved) and another one for "Waiting for e-mail confirmation" (UserHeldUntilEmailChecked)• in the user edition screen, add a scrollbar to see this status and select between "Enabled" and "Disabled" (the other modes shouldn't be selected, they should only be generated by Chamilo itself)• Generate a new e-mail template for that• The generated link could be using the main/auth/lost_password.lib.php::handle_encrypted_password() one, although I don't like the fact that it only uses MD5 and doesn't even verify if the user has asked to be reminded of his password or not

Has duplicate Chamilo LMS - Bug #1798: No e-mail check		Feature implemented 02/08/2010	

History

#1 - 16/01/2011 09:37 - Yannick Warnier

- Tracker changed from Bug to Feature

This is not really a bug. Rather something that should be implemented as a configuration option (a lot of use cases with poorly-digitalized users require the use of same or no email)

#2 - 01/05/2012 23:24 - Yannick Warnier

- Target version set to 1.9.2

#3 - 01/05/2012 23:39 - Yannick Warnier

- Estimated time set to 3.00 h

- SCRUM pts - complexity changed from ? to 8

#4 - 02/08/2012 00:33 - Yannick Warnier

- Target version changed from 1.9.2 to 2.0

#5 - 31/01/2016 22:53 - Yannick Warnier

- Target version changed from 2.0 to 3.0
