Description

Some teachers report they want their students to return to the learning paths list instead of returning to the course homepage. Make that available as a new course setting (choose between "Course homepage" or "Learning paths list").

The display change goes into newscorm/lp_view.php, around line 247 (two times) or in lp_controller.php, as the return link points there anyway.

Requires database changes (one more course_setting, 2 more course_setting_options)
