

Courses - Bug #2015

WebcmsToolComponent: move_up/down results in error

14/09/2010 11:20 - a b

Status:	Bug resolved	Start date:	14/09/2010
Priority:	Normal	Due date:	
Assignee:	a b	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	1.0.0	Spent time:	0.00 hour
Complexity:	Normal		

Description

When moving a publication up or down (e.g. announcements), the move_up or move_down component gets instantiated and tries to launch its generic counterpart. However there is only a generic mover component.

Solution: Refactor to a mover component and pass the direction with a parameter
