

Repository - Bug #2047

not possible to delete publications

22/09/2010 10:57 - Anonymous

Status:	Bug resolved	Start date:	22/09/2010
Priority:	Normal	Due date:	
Assignee:	a b	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	1.0.0	Spent time:	0.00 hour
Complexity:	Normal		
Description			
from My publications in repo if these are complex objects (wiki, lp, assignment...)			

History

#1 - 22/09/2010 15:51 - a b

- Assignee set to a b

#2 - 24/09/2010 09:22 - a b

- Status changed from New to Needs testing

It's still possible to delete complex objects. However you have to detach/unlink or delete the complex items attached to it first. The quickest way to do this, is viewing the complex object and using the 'unlink' button.

#3 - 24/09/2010 13:06 - Anonymous

Still a problem, now even for simple objects: [=Repository=SelectedPublicationNotDeleted=];
btw: what is the sense of the 'delete' option in 'My publication' is you have to undo your publication in another way?

With calendar event: error: Fatal error: require_once() [function.require]: Failed opening required 'C:\wamp\www\chamilogoogle\application\common\calendar\personal_calendar_manager.class.php' (include_path='C:\wamp\www\chamilogoogle\plugin\pear;C:\wamp\www\chamilogoogle\plugin\google\library') in C:\wamp\www\chamilogoogle\application\common\application_common_autoloader.class.php on line 31

#4 - 25/01/2011 11:45 - Stefaan Vanbillemont

- Status changed from Needs testing to Bug resolved

#5 - 01/04/2011 14:54 - Stefaan Vanbillemont

- Project changed from Chamilo LCMS Connect to Repository

- Category deleted (4)

#6 - 14/04/2011 13:43 - Stefaan Vanbillemont

- Target version changed from 18 to 1.0.0
