

Chamilo LMS - Bug #2185

Resizing of hotspot images

19/10/2010 18:04 - Simon Legner

Status:	Bug resolved	Start date:	19/10/2010
Priority:	Normal	Due date:	
Assignee:		% Done:	50%
Category:		Estimated time:	1.00 hour
Target version:	1.8.8 stable	Spent time:	0.00 hour
Complexity:	Normal	SCRUM pts - complexity:	?

Description

The resizing of hotspot images didn't work correctly, i.e. sometimes the aspect ratio was not preserved (e.g. for very wide images).

The attached patch contains a new implementation of this function and should work properly.

Downgrade ckeditor to version 4.6.2, error with copy n paste from word

In ckeditor > 4.4 there's a message:

Your browser doesn't allow you to paste this way. Press Ctrl+V to paste
And you cannot use the plugin copy from word

Maybe you can upload a file

#2 - 19/10/2010 21:18 - Simon Legner

- File *Source.jpg* added

- File *Result.png* added

Please consider the attached example: The image doesn't get resized at all and is cropped.

#3 - 01/11/2010 09:38 - Olivier CORRE

applied patch and it seems to work where pictures would be cut off at bottom or have weird resolutions.

#4 - 09/05/2011 16:30 - Julio Montoya

- File *result_188.jpg* added

- Status changed from *New* to *Needs more info*

- % Done changed from *0* to *50*

I did a test with the latest code of chamilo and the result is this

I think we can close this task?

#5 - 09/05/2011 16:30 - Julio Montoya

- Status changed from *Needs more info* to *Bug resolved*

- Target version set to *1.8.8 stable*

feel free to reopen ...
