

Repository - Bug #2310

error on editing wiki from repo

22/11/2010 14:10 - Anonymous

Status:	Feature implemented	Start date:	22/11/2010
Priority:	Normal	Due date:	
Assignee:	Hans De Bisschop	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	1.0.0	Spent time:	0.00 hour
Complexity:	Normal		
Description			
Fatal error: Class 'application\wiki\Translation' not found in C:\wamp\www\chamilogoogle\application\wiki\php\lib\data_manager\database_wiki_data_manager.class.php on line 176			

History

#1 - 22/11/2010 14:12 - Hans De Bisschop

- Assignee set to Hans De Bisschop

#2 - 22/11/2010 14:23 - Hans De Bisschop

This particular error should be gone, but please recheck whatever you were trying to do to make sure no new errors appear now that this is fixed.

#3 - 22/11/2010 14:24 - Hans De Bisschop

- Status changed from New to Needs testing

- % Done changed from 0 to 100

#4 - 22/11/2010 14:30 - Anonymous

An 'old' new error, now on opening the main page in the wiki application: Fatal error: Call to a member function getLinkColour() on a non-object in C:\wamp\www\chamilogoogle\plugin\wiki\mediawiki\LinkHolderArray.php on line 191

#5 - 22/11/2010 14:43 - Hans De Bisschop

I can't seem to reproduce this with my test data. Could you provide an export of the object(s) you're using / publishing in the application?

#6 - 22/11/2010 15:12 - Anonymous

- File *wiki_content_objects.cpo* added

#7 - 22/11/2010 15:41 - Hans De Bisschop

- Status changed from Needs testing to Assigned

Owokay ... getting the same error with this specific object now :)

#8 - 22/11/2010 15:41 - Hans De Bisschop

- % Done changed from 100 to 50

#9 - 22/11/2010 15:45 - Hans De Bisschop

Problem seems to be related to the toolbox links ... no idea yet as to why though.

#10 - 22/11/2010 15:52 - Anonymous

Created a new page with similar content, deleted the old one and now get a problem again to publish the wiki from the repo:

Fatal error: Class 'application\wiki\Session' not found in C:\wamp\www\chamilogoogle\application\wiki\php\lib\wiki_manager\wiki_manager.class.php on line 186

Strangely enough the newly added page cannot be moved upwards in the builder

#11 - 22/11/2010 16:37 - Hans De Bisschop

The specific problem with the toolbox should be fixed.

#12 - 22/11/2010 16:39 - Anonymous

true, only the queer problem of move up/down in the builder

#13 - 22/11/2010 16:43 - Hans De Bisschop

Fixed the problem with the Session ... still have to look at the moving problem.

#14 - 22/11/2010 17:37 - Hans De Bisschop

- *Status changed from Assigned to Needs testing*

Might this have been the source of the moving problem? Can't seem to reproduce it in the builder right now.

#15 - 29/11/2010 14:07 - Anonymous

- *Status changed from Needs testing to Feature implemented*

- *% Done changed from 50 to 100*

seems fixed

#16 - 01/04/2011 14:54 - Stefaan Vanbillemont

- *Project changed from Chamilo LCMS Connect to Repository*

- *Category deleted (4)*

#17 - 14/04/2011 13:42 - Stefaan Vanbillemont

- *Target version changed from 1 to 1.0.0*
