

## Repository - Bug #2366

### Edit / delete content object

27/11/2010 18:39 - Koen Favere

<b>Status:</b>	Rejected - Abandoned	<b>Start date:</b>	27/11/2010
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	Hans De Bisschop	<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	1.0.0	<b>Spent time:</b>	0.00 hour
<b>Complexity:</b>	Normal		
<b>Description</b>			
select attachment : no list of content objects appears			

### History

#### #1 - 27/11/2010 23:08 - Hans De Bisschop

- Status changed from New to Needs more info

- Assignee set to Hans De Bisschop

Please elaborate on this as I can not find anything wrong with the attachments ? ... (search query HAS to be entered, loading everything per default is fine if you have 10 objects, a disaster if you have 500)

#### #2 - 28/11/2010 12:17 - Koen Favere

The attachments themselves are OK.

The fact that one has to type "\*" and enter to get a treeview is not at all user friendly.

I understand that showing the treeview shouldn't be a default, but a 'show tree'-button could already resolve a lot.

For the selection of users, this way of working is fine, for attachments it's more intuitive to get a treeview.

#### #3 - 29/11/2010 09:47 - Sven Vanpoucke

As hans stated already, the performance issues that we will encounter by enabling this will be a disaster. If we place such a button everyone will use it because it's there and i think the javascript of the end user will just start to freak out...

#### #4 - 29/11/2010 09:53 - Hans De Bisschop

- Status changed from Needs more info to Rejected - Abandoned

So typing \* works to show everything? Will need to disable that, it should never be possible unless we really want to cause major annoyances on the user side. As Sven stated: browsers could crash when trying to render a few 1000 options, leading to data-loss.

In the ideal world everyone would have a superfast computer and an even faster server to host Chamilo, but this is simply not the case.

#### #5 - 29/11/2010 13:03 - Koen Favere

What about a work around instead of a rejection?

#### #6 - 29/11/2010 13:16 - Hans De Bisschop

There is currently no workaround for this. Feel free to post a feature request for version 2.1.

#### #7 - 29/11/2010 13:28 - Koen Favere

I understand, no problem.

#### #8 - 01/04/2011 14:53 - Stefaan Vanbillemont

- Project changed from Chamilo LCMS Connect to Repository

- Category deleted (4)

#### #9 - 14/04/2011 13:42 - Stefaan Vanbillemont

- Target version changed from 3 to 1.0.0
