Description			
<p>Currently I use Window Vista, Eclipse Helios + Mercurial plugin, and sometimes TortoiseHg.</p> <p>Using Eclipse I tried to clone Chamilo 2 in the folder C:\Users\Ivan Tcholakov\workspace\chamilo2 After a long time the operation interrupted and an error code was shown. I noticed that the project was created partly.</p> <p>Using the command prompt I tried the command:</p> <pre>hg update --verbose --clean</pre> <p>Here was the result:</p> <pre>... getting common/libraries/php/html/formvalidator/html_editor/html_editor_file_browser/html_editor_repo_viewer/flash/component/browser.class.php getting common/libraries/php/html/formvalidator/html_editor/html_editor_file_browser/html_editor_repo_viewer/flash/component/creator.class.php getting common/libraries/php/html/formvalidator/html_editor/html_editor_file_browser/html_editor_repo_viewer/flash/component/flash_content_object_table/flash_content_object_table.class.php getting common/libraries/php/html/formvalidator/html_editor/html_editor_file_browser/html_editor_repo_viewer/flash/component/flash_content_object_table/flash_content_object_table_cell_renderer.class.php getting common/libraries/php/html/formvalidator/html_editor/html_editor_file_browser/html_editor_repo_viewer/flash/component/flash_content_object_table/flash_content_object_table_column_model.class.php getting common/libraries/php/html/formvalidator/html_editor/html_editor_file_browser/html_editor_repo_viewer/flash/component/flash_content_object_table/flash_content_object_table_data_provider.class.php getting common/libraries/php/html/formvalidator/html_editor/html_editor_file_browser/html_editor_repo_viewer/flash/component/viewer.class.php getting common/libraries/php/html/formvalidator/html_editor/html_editor_file_browser/html_editor_repo_viewer/flash/html_editor_flash_repo_viewer.class.php getting common/libraries/php/html/formvalidator/html_editor/html_editor_file_browser/html_editor_repo_viewer/flash_video/component/browser.class.php getting common/libraries/php/html/formvalidator/html_editor/html_editor_file_browser/html_editor_repo_viewer/flash_video/component/creator.class.php getting common/libraries/php/html/formvalidator/html_editor/html_editor_file_browser/html_editor_repo_viewer/flash_video/component/flash_video_content_object_table/flash_video_content_object_table.class.php getting common/libraries/php/html/formvalidator/html_editor/html_editor_file_browser/html_editor_repo_viewer/flash_video/component/flash_video_content_object_table/flash_video_content_object_table_cell_renderer.class.php getting common/libraries/php/html/formvalidator/html_editor/html_editor_file_browser/html_editor_repo_viewer/flash_video/component/flash</pre>			

```

andbook_item_content_object_table/handbook_item_content_object_table_cell_renderer.class.php
[Errno 2] The filename or extension is too long
```

[command interrupted]

Well, Probably I have a problem with the path:

C:\Users\Ivan

Tcholakov\workspace\chamilo2\common\libraries\php\html\formvalidator\html_editor\html_editor_file_browser\html_editor_repo_view
er\handbook_item\component\handbook_item_content_object_table\handbook_item_content_object_table_cell_renderer.class.php

Maybe some other files with long paths will follow. I can see that within the path fragments are repeated without need,
such as: html_editor , handbook_item , content_object_table

Is it possible such long paths to be shrank?

History

#1 - 14/01/2011 14:09 - Ivan Tcholakov

By using Eclipse I cloned the current Chamilo 2 source in a folder with a shorter path: C:\xampp\htdocs\chamilo2 .

#2 - 04/02/2011 09:54 - Stefaan Vanbillemont

- Target version set to 7

#3 - 01/04/2011 14:56 - Stefaan Vanbillemont

- Project changed from Chamilo LCMS Connect to Repository

#4 - 14/04/2011 13:47 - Stefaan Vanbillemont

- Target version changed from 7 to 2.1.0

#5 - 16/06/2011 14:39 - Stefaan Vanbillemont

- Target version changed from 2.1.0 to 55

#6 - 17/06/2011 13:39 - Stefaan Vanbillemont

- Target version changed from 55 to Backlog (default)
