

Chamilo LMS - Bug #2711

Can't display test result if user has a name with a ' in it

31/01/2011 18:14 - Peter Van den Broeck

Status:	Bug resolved	Start date:	31/01/2011

Target version:	1.8.8 stable	Spent time:	0.00 hour
Complexity:	Normal	SCRUM pts - complexity:	?

Description

If I want to display test results or even correct test, I have found that I can't do this if the user has a name with a ' in it. Somehow the code misinterprets the ' as the end of the line (because ' has a different function in SQL and php).

Can't this problem be resolved by somehow rescripting the exercise so as the results be extracted by using the user's unique ID (User number) instead of the name. Dutch and Flemish (and I beleiev even French) names with a ' in it are quite common.

example of the generated link. I've bolded the name to indicate the problem area. This is a mock link. The actual one I get is printed below.

What it should be:

[http://campus/main/exercice/exercice_show.php?cidReq=2010VBP008&action=qualify&user=***Louise%20D'hondt***&dt=donderdag%2027%20januari%202011%20om%2013:27&res=11.00&id=976&email=x@x.com](http://campus/main/exercice/exercice_show.php?cidReq=2010VBP008&action=qualify&user=*Louise%20D'hondt*&dt=donderdag%2027%20januari%202011%20om%2013:27&res=11.00&id=976&email=x@x.com)

What you get:

[http://campus/main/exercice/exercice_show.php?cidReq=2010VBP008&action=qualify&user=***Louise%20D***](http://campus/main/exercice/exercice_show.php?cidReq=2010VBP008&action=qualify&user=*Louise%20D*)

Hello Peter,

Thanks for reporting! We improved a little bit the exercise tool so as far as I know this was already fixed, you can test it in our server installed with a nighly build of Chamilo
