

Chamilo LMS - Feature #279

vCard export of users

03/12/2009 17:41 - Carlos Vargas

Status:	Feature implemented	Start date:	03/12/2009
Priority:	Normal	Due date:	
Assignee:	José Loguercio	% Done:	100%
Category:	Users/Groups	Estimated time:	4.00 hours
Target version:	1.10.0	Spent time:	16.00 hours
Complexity:	Normal	SCRUM pts - complexity:	5

Description

Add a vCard export icon for users on:

- the "shared profile" page
- the normal profile page
- the users details page (in the admin users list, when clicking on the "i" icon)

The vCard generated should export generic professional data to keep in touch with the user:

- firstname/lastname
- e-mail
- contact phone (if any)
- language (from Chamilo interface's language)

Ideally, when clicking on a vCard export icon through a mobile phone, it should detect it as a new contact.

Microformat's page recommends using h-card rather than vCard:

http://microformats.org/wiki/microdata#microdata_vCard_vocabulary

Also, it recommends wrapping it in a "hcard" tag for better indexation by Google (although this is not the point of our vCards here).

Example of vCard (but find or write a license-compatible library to do that): http://microformats.org/wiki/hCard#Sample_vCard

Use something like that for the icon:

https://commons.wikimedia.org/wiki/Category:Nuvola-inspired_icons_for_MediaWiki#/media/File:Nuvola-inspired_File_icons_for_MediaWiki-fileicon-vcard.png (ask Alex to generate the PNGs and optimize the SVG please)

It works and it's easy

Why not incorporate it to Dokeos 1.8.5 ?

Actualizado por Yannick Warnier hace 3 meses

- Versión prevista changed from 1.8.5 to 1.8.7 * Severity deleted * Complexity set to Average

#2 - 12/03/2010 22:53 - Yannick Warnier

- Assignee changed from Yannick Warnier to Carlos Vargas

- Target version changed from 1.8.7 to 1.8.7 beta

- SCRUM pts - complexity changed from ? to 5

Should be available from friends extended profile pages, enabled by an admin settings_current

#3 - 12/03/2010 22:54 - Yannick Warnier

- Status changed from New to Assigned

- Estimated time set to 4.00 h

#4 - 22/04/2010 18:26 - Yannick Warnier

- Target version changed from 1.8.7 beta to 1.8.7.1

#5 - 21/07/2010 18:51 - Yannick Warnier

- Assignee changed from Carlos Vargas to Curt Ricardo Rodriguez Salazar

- Target version changed from 1.8.7.1 to 1.8.8 stable

#6 - 13/04/2011 19:14 - Yannick Warnier

#7 - 13/04/2011 19:15 - Yannick Warnier

- Status changed from Assigned to New

- Assignee deleted (Curt Ricardo Rodriguez Salazar)

- Target version deleted (1.8.8 stable)

#8 - 01/05/2012 16:37 - Yannick Warnier

- Target version set to 1.9.2

#9 - 02/08/2012 00:21 - Yannick Warnier

- Target version changed from 1.9.2 to 2.0

#10 - 27/10/2014 18:06 - Yannick Warnier

- Category set to Users/Groups

- Status changed from New to Assigned

- Assignee set to Yoselyn Castillo

#11 - 27/10/2014 18:08 - Yannick Warnier

- Target version changed from 2.0 to 1.10.0

#12 - 28/10/2014 04:46 - Yoselyn Castillo

For studying and installing this plugin i think it would be necessary a little more time. But i am on this

#13 - 05/02/2015 14:29 - Yannick Warnier

- Assignee changed from Yoselyn Castillo to Angel Quiroz

#14 - 02/04/2015 07:41 - Yannick Warnier

- Status changed from Assigned to New
- Assignee deleted (Angel Quiroz)
- Target version changed from 1.10.0 to 2.0

I'm moving this to 2.0. I'm sure Symfony must have some component somewhere to deal with vCard exports, and it would make much more sense to wait until then to integrate it.

#15 - 07/09/2015 15:18 - Yannick Warnier

- Status changed from New to Assigned
- Assignee set to José Loguercio

#16 - 07/09/2015 21:27 - Yannick Warnier

- Subject changed from vcard export of users to vCard export of users
- Description updated

- Description updated

#18 - 07/09/2015 21:33 - Yannick Warnier

- Description updated

#19 - 08/09/2015 01:22 - José Loguercio

- % Done changed from 0 to 50

Implementing ... 50%

#20 - 09/09/2015 01:53 - José Loguercio

- % Done changed from 50 to 90

Implementing 90% almost done, only trying to add "language" to the vCard, i don't know if modify the lib main script is better than make a script to add it cuz the main script doesn't support the language tag.

#21 - 09/09/2015 17:39 - José Loguercio

- % Done changed from 90 to 100

Done! now you can export a vcard from profile, testing now in mobiles

#22 - 09/09/2015 21:44 - Alex Aragon

- % Done changed from 100 to 80

Cual es la rama de esta tarea?, para proba y crear un icono para la vcard...

#23 - 09/09/2015 21:45 - José Loguercio

Esta es la Master!

#24 - 09/09/2015 22:06 - José Loguercio

- Assignee changed from José Loguercio to Alex Aragon

<https://github.com/jloguercio/chamilo-lms/tree/279>

Realizado la exportacion de las vCards en los perfiles normal/shared/userList(admin)

Asignando a Alex Aragon para mejorar los nuevos Iconos
