

Repository - Usability #2954

REPO / Rights: select users

24/02/2011 10:28 - Anonymous

Status:	New	Start date:	24/02/2011
Priority:	High	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	Backlog (default)	Spent time:	0.00 hour
Description			
When sharing an object, the present procedure is very cumbersome:			
<ul style="list-style-type: none">• you have to search for each user and group you want to add• the view window is too small requiring both vertical and horizontal scrolling, whereas the screen still offers a lot of empty space			
Proposal:			
<ul style="list-style-type: none">• make it possible to select users & groups separately• combine a search function with a continuous list (as is the case in similar situations in the present Dokeos)• add search options (such as 'full word' search, capital sensitive search, etc.)			
(Similar situation with other select boxes!)			

History

#1 - 28/02/2011 13:07 - Sven Vanpoucke

- Project changed from 15 to Chamilo LCMS Connect

#2 - 01/04/2011 14:56 - Stefaan Vanbillemont

- Project changed from Chamilo LCMS Connect to Repository

#3 - 14/04/2011 15:33 - Stefaan Vanbillemont

- Target version set to 2.1.0

#4 - 13/01/2012 14:34 - Stefaan Vanbillemont

- Target version changed from 2.1.0 to Backlog (default)
