

Repository - Bug #2959

portfolio

24/02/2011 16:08 - Anonymous

Status:	Bug resolved	Start date:	24/02/2011
Priority:	Normal	Due date:	
Assignee:	Sven Vanpoucke	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	2.1.0	Spent time:	0.00 hour
Complexity:	Normal		
Description			
'create an new item' in portfolio is perfectly possible when using the iconfunction, but not starting from the selectbutton. When using the latter function, the item is not visible, though created in the repository.			

History

#1 - 25/02/2011 09:30 - Stefaan Vanbillemont

- Project changed from 15 to Chamilo LCMS Connect
- Assignee set to Nathalie Blocry

#2 - 25/02/2011 09:33 - Stefaan Vanbillemont

- Target version set to 21

#3 - 25/02/2011 11:56 - Nathalie Blocry

- Category set to 4
- Assignee deleted (Nathalie Blocry)

cannot recreate bug
probably system/browser dependent
also probably not a portfolio-problem but a problem with the repoviewer

#4 - 17/03/2011 15:34 - Nathalie Blocry

this is def. a bug in the repoviewer where the behaviour is different when you choose a co-type from the dropdown list or when you choose a co-type by clicking on an icon.

you can see this same problem for instance in the weblcms when you publish/create an assessment, in the handbook app... everywhere you can choose different types of content objects to create.

what is the advantage of the 2 systems for selecting a type? couldn't we just eliminate the dropdown?

#5 - 17/03/2011 15:35 - Sven Vanpoucke

I already fixed this bug for the learning path, portfolio and handbook item on the stable repositories

#6 - 17/03/2011 15:36 - Sven Vanpoucke

- Status changed from New to Needs testing
- Assignee set to Sven Vanpoucke

#7 - 21/03/2011 10:32 - Stefaan Vanbillemont

- Status changed from Needs testing to Bug resolved

#8 - 01/04/2011 14:53 - Stefaan Vanbillemont

- Project changed from Chamilo LCMS Connect to Repository
- Category deleted (4)

#9 - 14/04/2011 13:48 - Stefaan Vanbillemont

- Target version changed from 21 to 2.1.0
