Why? If the (re)user does not want to apply any changes, there is no data duplication. In the other case there will be automatic data duplication.

#2 - 23/03/2011 15:22 - Koen Favere

In many cases I only want another user to reuse my CO and not give this person the option to use my original.

this feature has been implemented on the stable with takink "copy" right out of the search - view - use - collaborate hierarchy

#7 - 16/06/2011 19:39 - Koen Favere

Tested it. Works fine.

But the icons for the rights are wrong : green for (search/view/use/collaborate) in stead of red, when only copy right is selected.

Quite confusing
