<b>Description</b>			
<p>We have setup a course for a couple of classes with a number of teachers which should have equal rights in the course. Now, if I as a teacher upload for example a document in the document tool, with lets say a planning for the next couple of weeks, and then I get ill and another teacher wants to alter the planning for some reason (which he may).</p> <p>How to do this (easily)?</p> <p>Same for learning paths etc.</p> <p>Thanks in advance,</p>			

#### History

##### #1 - 28/04/2011 11:32 - Sven Vanpoucke

Currently it is not possible to collaborate on the same object with multiple teachers. We are working on this with very high priority.
