<b>Complexity:</b>	Normal	<b>SCRUM pts - complexity:</b>	?

#### Description

The idea is to add google maps to the user's profile so they can enter the location using the user's extra fields.

Then we can show a map with all the students that are registered, online, etc

#### History

##### #1 - 25/05/2011 01:51 - Yannick Warnier

- Target version set to 1.9 Stable

That was one of the topic of one of my speeches about Dokeos (left to the user as an exercise)... nobody ever implemented it, but it would still be nice. Could we think a bit more "out of the box" and just add a "Geographic location" field **type** in the user extra fields?

##### #2 - 02/05/2012 01:14 - Yannick Warnier

- Target version changed from 1.9 Stable to 1.9.2

##### #3 - 02/08/2012 00:34 - Yannick Warnier

- Target version changed from 1.9.2 to 2.0

##### #4 - 10/08/2016 00:47 - Yannick Warnier

Side note: the geographical location user field has been added to 1.11.0. We're only missing the global map now.
