**Description**

After the update, my old course, which is more than 2 years, not appear again, the most recent are shown.  
But if I go through sort my courses, I see them all.  
Using the old file user\_portal.php everything is ok

### History

#### #1 - 14/05/2011 21:32 - Andre Boivin

- Target version changed from 1.8.8 stable to 1.8.8.4

#### #2 - 15/05/2011 17:51 - Andre Boivin

- Priority changed from Normal to High

We do not use session.

#### #3 - 16/05/2011 00:32 - Andre Boivin

After the update, I found it was missing 4 tables in the main database: personal\_agenda, personal\_agenda\_repeat, personal\_agenda\_repeat\_not and user\_courses\_category.

(I compare the tables of a new installation with that of upgrade1871 to 188)

#### #4 - 20/05/2011 16:29 - Julio Montoya

- Status changed from New to Needs more info

The migration was in a platform with a single database?

#### #5 - 20/05/2011 23:38 - Andre Boivin

No, multiple databases

#### #6 - 26/05/2011 16:21 - Andre Boivin

- Target version changed from 1.8.8.4 to 1.8.8 stable

#### #7 - 26/05/2011 18:11 - Julio Montoya

Yannick report to me something similar I fix it with

<http://code.google.com/p/chamilo/source/detail?r=ec57e262174ba6b26665652e67182292ef67d25a&repo=classic>

the problem was that the table access\_url\_rel\_course wasn't fill.

Fixing js during migration + fixing access\_url\_rel\_course table if multiple\_url is not set for courses created in dok€os 185

The fix runs when updating to chamilo 1.8.8

#### #8 - 27/05/2011 17:51 - Yannick Warnier

- Status changed from Needs more info to Bug resolved

- Assignee set to Andre Boivin
- Target version changed from 1.8.8 stable to 1.8.8.2
- % Done changed from 0 to 100

Hi Andre,

We're releasing 1.8.8.2 today, so let us know if the problem persists and put it in 1.8.8.3. Thanks for reporting.
