

Chamilo LMS - Feature #350

Student can use her/his language for course menu

03/12/2009 18:46 - Carlos Vargas

Status:	Feature implemented	Start date:	03/12/2009
Priority:	Normal	Due date:	
Assignee:	Julio Montoya	% Done:	100%
Category:	Course settings	Estimated time:	0.00 hour
Target version:	1.11.4	Spent time:	0.00 hour
Complexity:	Normal	SCRUM pts - complexity:	?

Description

Now students can use a localized version of the main platform, not a localized version of Training/Course homepage. Perhaps a teacher can choose if it is useful to use only one language for training/course menu or also the student's language.

It is not so urgent feature, and it is useful sometime if [edited: Chamilo] is used as international project repository (I used it) or as international class exchange co-operation.

History

#1 - 12/03/2010 18:24 - Yannick Warnier

- Target version changed from 1.8.7 to 1.8.7.1

Hi Furio,

I'm moving this to 1.8.7.1. As far as I am concerned, the idea with the course language is to imply immersion into the course's own language. If the content is in English, put the interface in English. If the content is in Spanish, put the interface in Spanish. As the content will not get translated (although this could also be discussed with the new tools available), it is not very useful in my view to translate the interface.

I'm not rejecting it, only pushing it to a later date.

#2 - 21/07/2010 19:18 - Yannick Warnier

- Target version deleted (1.8.7.1)

#3 - 01/05/2012 17:19 - Yannick Warnier

- Target version set to 1.9.2

#4 - 02/08/2012 00:21 - Yannick Warnier

- Target version changed from 1.9.2 to 2.0

#5 - 31/01/2016 22:06 - Yannick Warnier

- Description updated

- Category set to Course settings

- Status changed from New to Assigned

- Assignee set to Julio Montoya

Add a field to a course so that, in this course, only the student language matters. If no course language is provided, then use the course language.

In relation to language priorities, this comes **before** the language priorities evaluation, and **then** (if no language could be found) process normal language priorities.

Please add #ofj tag to corresponding commits

#6 - 28/11/2016 01:14 - Yannick Warnier

- File course-language.png added

- Status changed from Assigned to Feature implemented

- Target version changed from 2.0 to 1.11.4

- % Done changed from 0 to 100

This feature now exists (as initially defined) in 1.11.2
