

Chamilo LMS - Bug #3585

Whoisonline user thumbnail not updated

10/06/2011 02:33 - Yannick Warnier

Status:	Bug resolved	Start date:	10/06/2011
Priority:	Normal	Due date:	
Assignee:	Yannick Warnier	% Done:	0%
Category:		Estimated time:	1.50 hour
Target version:	1.8.8.4	Spent time:	0.00 hour
Complexity:	Normal	SCRUM pts - complexity:	8

Description

When a user uploads a large picture, the picture doesn't seem to be resized well, or maybe the whoisonline page doesn't recover the right thumbnail size... Either way, there are several users on campus.chamilo.org with just their hair appearing, and when you upload a new picture (smaller), the thumbnail from whoisonline is not refreshed... Not looking good!

I sent some changes for 1.8.8.3 in order to fix that using CSS3 properties (clip, transform) but **is not** a perfect solution.

We could implement that something like that:

<http://code.google.com/p/jcrop/>

<http://deepliquid.com/projects/Jcrop/demos.php>

#2 - 10/06/2011 19:07 - Julio Montoya

In fact, the images are well resize the problem is the CSS style that tries to hide part of the image in order to have a perfect square

No, the images have to be really resized. They should be saved in several formats (3, I think) when uploaded, and CSS should not have anything to do with that.

There is code somewhere to do that (the resizing when uploading the picture), but apparently it doesn't work.

The images are really resized. CSS only hides part of the resize image in order to have something like a square. Otherwise some images will be bigger than others (portrait).

The resize works for me. I test it also in chamilodev today

OK. It must have been something wrong in the past then.

How do you explain the following screenshot, showing what appears on chamilodev when I look for "john" in the search box of my social network? See how my picture is resized strangely in comparison with the bigger image on the left? Anything anormal there or we just say that this is normality?

#6 - 04/08/2011 17:45 - Julio Montoya
