Description
Hi, it seems that mail notification for teachers when a student answer an open question doesn't work.

History

remember that you have to have the "email_alert_manager_on_new_quiz" option on

see your course settings ... currently its off by default

Ok, I didn't know about these new options. Nice course options !

I think this option should appear in a Tests option, like for a forum, you can choose to receive a mail, if you want to be notified for any activity in the forum.

It seems that now, every teacher of the course receive the mail notification for test. It's going to be a problem for us.
What about :
- the course Trainer (you see in the Settings of the course) will receive mails
- you can choise several course Trainer (with a multi selection menu for exemple)

This changed from a bug to a feature, which implies moving it to 1.10... sorry :-)
