

Chamilo LMS - Bug #438

Integrate Glossary into exercises and learning path

15/12/2009 22:10 - Arthur Portugal

Status:	Feature implemented	Start date:	15/12/2009
Priority:	Normal	Due date:	18/05/2010
Assignee:	Julio Montoya	% Done:	90%
Category:		Estimated time:	0.00 hour
Target version:	1.8.7	Spent time:	0.00 hour
Complexity:	Normal	SCRUM pts - complexity:	5

Description

Integrate the glossary feature into exercises and learning path, so that:

- every exercise or question text (title, description) is marked as a term if there is an equivalent glossary term * every learning path that contains HTML should be marked as well, in the content section (does not include the table of contents), even if SCORM. Non-HTML content will not be marked. * integrate changes into mercurial for Free

Implement on devmsf.dokeos.com and take feedback

Comment Edit

When developing an exercise, the tooltips appear (glossary), but they don't appear in the answers, only in the questions. Another thing is that when I finish developing the exercise as a student, in the final report, you can't see the tooltips, but if you do the same in the courses (learning path), you can see them in all components. I'm adding screenshots. The rest is alright. Also tried in IE7 and IE6.

[#8](#)

Actualizado por Arthur Portugal hace alrededor de 1 mes

Comment Edit

It has to be fixed in courses (lp) using IE6/7. Today I had problems in there.

Comment Edit

The last tests I did passed correctly in Mozilla Firefox and on Windows in IE7. I'm attaching a screenshot from a Windows.

Hi julio,

These are the files modified by me :

- main/install/dokeos_main.sql
- main/install/dokeos_main.sqlmigrate-db-1.8.6.1-1.8.6.2-pre.sql

- main/newscorm/scorm_api.php - It should be modified
- main/exercice/exercice_submit.php - It should be modified
- main/exercice/exercise.lib - It should be modified
- main/inc/lib/javascript/jquery.highlight.js - It should be added
- main/inc/lib/javascript/glossary.js - It should be added

Julio, can you take this one in charge now that the prerequisite is finished? Beware of the change implemented manually on top of 1.8.6.1

I have some troubles with the jquery instances that I found in devsmf.dokeos.com. Yannick is asking by email some feedback. These are the files:

<http://devmsf.dokeos.com/js/ui/js/jquery-1.3.2.min.js>

<http://devmsf.dokeos.com/js/ui/js/jquery-ui-1.7.2.custom.min.js>

I replaced the jquery-1.3.2 to the jquery-1.2.6 since the glossary.js + jquery-highlight.js plugin works with that version.

I don't know where to test the feature that uses the jquery-1.3.2.

Features (Direct Feedback & Show/Hide in tests) that worked with jQuery 1.3.2 don't work anymore since the update (1.2.6).

Hi Arnaud,
Julio and Yannick,

This morning 9am on devmsf.dokeos.com James case I still have

- 2 validate buttons instead of one and
- Feedback end of page and not in popup.

See attachment.

Migration to production portal is Monday.

All the "1.3.2." jQuery features works fine !

Great.

Je viens de régler 2 problèmes et mettre à jour devmsf.dokeos.com

I found a new bug, when I have this string:

"Test ATFC Example TFC Test ATFC"

The glossary tool searches for all occurrences of "TFC" and will treat the "ATFC" word like a "TFC" match which is incorrect. So I fixed the jquery.highlight.js for an strict word search.

1. Si je fais un test avec le mot clé sfc : le glossaire s'affiche partout donc ça marche

2. Si j'introduis ce test dans un parcours, le glossaire ne s'active pas

Fixé

3. Si je crée un document qui inclut une vidéo dont le nom contient "asfc" le lien vers l'embed de la vidéo est brisé car le glossaire s'active sur "sfc"

Fixé

ok merci julio

peux tu mettre à jour msf.dokeos.com également, le projet est déjà commencé et le client est sur son serveur de production à présent

#3 - 05/01/2010 23:59 - Julio Montoya

- Assignee changed from Julio Montoya to Arthur Portugal

- Target version set to 1.8.6.2 stable

- % Done changed from 0 to 90

Can you test this task? This is already fixed.

#4 - 06/01/2010 21:46 - Carlos Vargas

The meaning of the glossary should be displayed on a square of a fixed size.

El significado del glosario debe mostrarse en un cuadrado de un tamaño fijo.

#5 - 12/01/2010 15:12 - Arthur Portugal

- Assignee changed from Arthur Portugal to Carlos Vargas

#6 - 12/01/2010 15:34 - Arthur Portugal

this task is done?

#7 - 12/01/2010 20:25 - Arthur Portugal

- Assignee changed from Carlos Vargas to Julio Montoya

Bug when made click in one element type document than have glossary term, this not show the link with the content. (learnpath)

#8 - 12/01/2010 20:28 - Arthur Portugal

In window IE, the content the term in a document is showing but using scroll (inside a learnpath).

#9 - 12/01/2010 20:29 - Arthur Portugal

In a learnpath the exercises not have the same format when show the content.

#10 - 13/01/2010 18:36 - Julio Montoya

- Status changed from Assigned to Needs testing

- Assignee changed from Julio Montoya to Arthur Portugal

- SCRUM pts - complexity changed from ? to 5

Those 3 bugs should be fixed with:

<http://code.google.com/p/chamilo/source/detail?r=01938e9e015375645ff10e0816fee976c9a2c902&repo=classic>
<http://code.google.com/p/chamilo/source/detail?r=be68880bf067c4777ca56a3f3baa58f50972d735&repo=classic>

Requires testing

#11 - 18/01/2010 18:15 - Arthur Portugal

- File *Pantallazo-1.png* added
- Status changed from *Needs testing* to *Assigned*
- Assignee changed from *Arthur Portugal* to *Julio Montoya*
- Target version changed from *1.8.6.2 stable* to *11*
- % Done changed from *90* to *80*

When the term is to the final of the line, the term can not show well the term because there are not space enable to show the content.

#12 - 22/01/2010 03:33 - Yannick Warnier

- Target version changed from *11* to *1.8.7*

#13 - 14/05/2010 20:01 - Yannick Warnier

- Due date set to *18/05/2010*

#14 - 25/05/2010 11:31 - Julio Montoya

- Status changed from *Assigned* to *Feature implemented*
- % Done changed from *80* to *90*

I do not consider a "priority" bug, if the glossary tool tip is really big means that there is something wrong with the the person who wrote it. Feel free to re-open.
