

Repository - Bug #4992

Link to image in template

18/06/2012 14:56 - Koen Favere

Status:	New	Start date:	18/06/2012
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	Backlog (default)	Spent time:	0.00 hour
Complexity:	Normal		
Description			
<p>When a template, with an image, is copied to the user repository, both the image and the template are copied to this user repository. The image, however, stays linked to the image in the administrator repository template. The image in the template should be linked to the copied image.</p>
