I don't know if that's Redmine or your commit, but there is no reference to "type" in this commit (just something about glossary)

Dont' think I actually did something for that one (looks like things got mixed up with another revision I am afraid)

IN migrate-db-1.8.6-1.8.6.1-pre

```
ALTER TABLE gradebook_evaluation ADD COLUMN type varchar(40) NOT NULL default 'evaluation';
```

IN migrate-db-1.8.6.1-1.8.6.2-pre

```
-- This first part is for the main database
```

```
-- xxMAINxx
```

```
ALTER TABLE gradebook_evaluation ADD COLUMN type varchar(40) NOT NULL;
```

Not sure which one I need to remove

#5 - 12/07/2012 08:49 - Laurent Opprecht

#6 - 12/07/2012 17:25 - Yannick Warnier

- Status changed from Needs more info to Assigned

You should remove the one without the default value (I got that by checking the db_main.sql)

#7 - 18/07/2012 17:22 - Julio Montoya

- Status changed from Assigned to Bug resolved
- Assignee deleted (Laurent Opprecht)
- % Done changed from 0 to 100

I confirmed that

```
-- xxMAINxx  
ALTER TABLE gradebook_evaluation ADD COLUMN type varchar(40) NOT NULL;
```

was removed.
