#### Description

you can't enter the course through the 'go to course' button from course catalog or hottest courses when the course is set to 'Private - access authorized to course members only' even when you are a teacher (owner) of the course. The same applies to the learner of the course. Any less restrictive course setting does not suffer from this symptom.

as for admin, button is there as should be, access is enabled. Closed courses are not present in catalog, that's ok too: admin can access such courses trough admin interface. Fyi: closed courses are present in Hottest Courses. Button is present here too. Buttons for admin are ok now.

just report as i still don't know what hrm can 'see' when user is assigned to her/him and when course is assigned to him/her. Sessions are not part of the course catalog or hottest courses. Note that access to course catalog is not enabled for hrm.

hrm:

- course catalog: has no access to course catalog / there is no link to course catalog (for now /or intentional)
- hottest courses (if activated):
- hrm ( no course assigned, no user assigned)
  - no button (access) on closed course, course is present in the list
  - no button on private course
  - button present, if course is open (registered or world open)
- hrm (no course assigned, but course user assigned)
  - there is no button for private and closed courses
- hrm (course assigned)
  - button present on private, open, open world course
  - no button on closed course

owner of the course (teacher):

- no button (access) to course through hottest courses when course is closed
- no closed course in course catalog list
- access to the course through my courses

I sent a fix for this: "Closed courses are present in Hottest Courses"

**#11 - 18/07/2012 16:13 - Marko Kastelic**

ok. So closed courses are in no case visible from course catalog or from hottest courses ? Good for me, lists are made only for 'picking' the courses. Owner can enter from my courses, admin for admin interface. ( Or is hottest courses meant for advertising, in this case i would like to see frequent course on the list even if it is closed ... just kidding...)

**#12 - 18/07/2012 16:30 - Julio Montoya**

- Status changed from Assigned to Needs more info
- Assignee deleted (Julio Montoya)
- % Done changed from 70 to 90

looks good. Can be closed or better closing after hrm is finished ...

**#14 - 19/07/2012 15:40 - Marko Kastelic**

sorry,  
just noticed that closed courses are shown in hottest courses list (login as mku/mku to chamilodev, course 00mk00 is closed, but visible in the list and with go-to-course button enabled ....

Funny... I just reported a bug which is directly conflicting with this one :-)

OK, the other bug is not conflictive (it's another type of access) and this one (here) is completely fixed as far as I could test.

Thanks guys!
