Description

For example <http://campus.chamilo.org/main/user/user.php?cidReq=USB001> shows all e-mails although the admin option says to hide e-mails.

Apply patch as quickly as possible to campus.chamilo.org (check the admin setting to hide e-mail).

- Hide from users list when subscribing new students/teachers
- Hide e-mails from users detailed list (clicking on pencil in the subscribed users list)

I sent a fix. I think that even if you're admin you should not be able to view the email, otherwise code will be more complicated and admins will believe that everybody can see the emails ...
