

## Chamilo LMS - Bug #526

### Survey language is not translated in the languages list

16/01/2010 21:54 - Yannick Warnier

<b>Status:</b>	Bug resolved	<b>Start date:</b>	16/01/2010
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	Alberto Torreblanca	<b>% Done:</b>	100%
<b>Category:</b>		<b>Estimated time:</b>	0.20 hour
<b>Target version:</b>	1.8.8 alpha	<b>Spent time:</b>	0.97 hour
<b>Complexity:</b>	Easy	<b>SCRUM pts - complexity:</b>	1
<b>Description</b>			
When creating a new survey, the creation language is never translated in the list of surveys (in a French interface, I see "French" instead of "Français")			

#### History

##### #1 - 22/01/2010 03:34 - Yannick Warnier

- Target version changed from 11 to 1.8.7

##### #2 - 13/04/2010 23:56 - Anonymous

I looked into this but couldn't find a way to use langNameOfLang (see trad4all.inc.php). Will look at it again later...

##### #3 - 14/04/2010 00:26 - Anonymous

- Target version changed from 1.8.7 to 1.8.7.1

The problem is that there are 2 langNameOfLang in trad4all:

- One that is an array
- Another one that is a string

When commenting out the string langNameOfLang, get\_lang('NameOfLang') returns the array, which can be used to translate the survey language. The solution would therefore be to remove the string langNameOfLang, which is apparently not used anywhere. Leaving this for the 1.8.7.1, to avoid eventual bugs caused by this variable removal

##### #4 - 26/07/2010 03:28 - Yannick Warnier

- Target version changed from 1.8.7.1 to 1.8.8 stable

- Complexity changed from Piece of cake to Easy

The problem is still up to date (delayed until 1.8.8 and promoted to "easy").

As Guillaume said, we can probably recover NameOfLang, but this translation doesn't seem to be updated, nor does it seem possible (from what I see inside the get\_lang()'s code) to recover the array. In any case, the update should be done around \$survey<sup>5</sup> inside get\_survey\_data() in main/survey/survey.lib.php.

I would suggest forgetting about NameOfLang array from now on and just declare the languages with some kind of prefixed variables inside trad4all.inc.php

##### #5 - 16/01/2011 07:14 - Yannick Warnier

- Target version changed from 1.8.8 stable to 1.8.8 alpha

- Estimated time set to 0.20 h

##### #6 - 16/01/2011 18:01 - Alberto Torreblanca

- Status changed from New to Assigned

- Assignee set to Alberto Torreblanca

##### #7 - 16/01/2011 19:06 - Alberto Torreblanca

- Status changed from Assigned to Bug resolved

- % Done changed from 0 to 100
