History

#1 - 02/08/2012 12:34 - Julio Montoya

what's the course in chamilodev?

#2 - 02/08/2012 12:48 - Marko Kastelic

02MK02

and could you check report after LP execution ? I really don't know how to read the results ...

#3 - 02/08/2012 14:05 - Julio Montoya

- Status changed from New to Needs testing

- % Done changed from 0 to 50

I fixed the bug, I checked the file attached, the error was because the new question type "global" was not added in order to be exported as an "scorm"

#4 - 02/08/2012 14:55 - Marko Kastelic

great. Export works. Did you changed anything else ? Previously i cant get behind 33%, now is set to 100. And stil don't know how to interpret the numeric score ...

#5 - 02/08/2012 15:03 - Julio Montoya

I also fixed a bug when exporting an LP when using images from the templates,

The error you mentioned could be due the fact that I was also entering the LP so maybe the progress changed. You should logout and login again to test. I will not entering that course anymore.

#6 - 02/08/2012 16:06 - Marko Kastelic

- File lp_sco.png added

i was also talking about this one :

Naslov učnega objekta	Status	Rezultat	Čas
one			
Poskus 1	Dokončan	0 / 100	0:00:07
two			
Poskus 1	Dokončan	0 / 100	0:00:03
New test - Kopiraj			
Poskus 1	Dokončan	100 / 100	0:00:19
three			
Poskus 1	Dokončan	0 / 100	0:00:05
Zbir (dokončanih učnih objektov)		30.77%	0:00:34

for which i don't know if it is a bug or not, but looks weird ... Structure of lp (steps) is as : document + document + test + document

#7 - 02/08/2012 16:14 - Julio Montoya

I tested the same thing in another course and it seems to work, when you finish testing your course (02MK02) let me know, I don't want to mess with your results :)

#8 - 02/08/2012 16:22 - Marko Kastelic

you're free to try. I was logged as mku/mku anyway. And note also: upper picture shows score 0/100 for documents, on other test where documents are inside chapters (level 2), the score is shown as simple dash (-) ...

#9 - 02/08/2012 16:38 - Julio Montoya

ok, I will do some testing in that course ...

#10 - 02/08/2012 16:52 - Julio Montoya

i did a test with admin/admin and it works

#11 - 02/08/2012 16:54 - Julio Montoya

I also did a test with mku and ... it works well (I can make a test and I have a result and it's showed in the attempts) but when showing a document it shows "0/100" instead of "-" ... I think that's the bug?

#12 - 02/08/2012 16:55 - Julio Montoya

yeah that's the bug, that's not fine

#13 - 02/08/2012 17:06 - Julio Montoya

I sent a fix for that issue "0/100" in documents

#14 - 02/08/2012 19:19 - Marko Kastelic

fix for -, 0/100 is o.k.

stil need confirmation for total: let suppose picture above - all steps are finished, test is at 100, total shows 30.77 % ??

#15 - 03/08/2012 14:07 - Julio Montoya

testing

#16 - 03/08/2012 15:21 - Julio Montoya

I tried to reproduce this locally but I can't, same LP, same exercises, but it works fine. I will debug in the same server ...

#17 - 03/08/2012 15:47 - Julio Montoya

- Target version set to 1.9.2

- % Done changed from 50 to 90

I finally got it! It was a missing c_id in a query now it works

#18 - 03/08/2012 17:28 - Marko Kastelic

- Assignee set to Julio Montoya

super ! beeznest's is ok, my local too. just close it before i find something else

#19 - 06/08/2012 11:20 - Julio Montoya

- Status changed from Needs testing to Bug resolved

- Assignee deleted (Julio Montoya)

- % Done changed from 90 to 100

#20 - 07/09/2012 11:27 - Jose Manuel Abuin Mosquera

- Status changed from Bug resolved to Needs testing

Hi,

I was exporting some LP and when you have a "Image zones" question inside the learning path, exporting doesn't work.

Actually it's a very small mistake at file main/exercice/export/scorm/scorm_classes.php

Line: case HOTSPOT:

should be: case HOT_SPOT:

I hope this helps :)

#21 - 10/09/2012 15:01 - Julio Montoya

Hello Jose,

I just sent your fix.

Regards,

Jose Manuel Abuin Mosquera wrote:

- Status changed from Assigned to Bug resolved

- Assignee deleted (Yoselyn Castillo)

It works now. I have tested without the fix, then export doesn't work. But with the fix, export works even when the LP contains an image zone.
