

Chamilo LMS - Bug #5394

Error enviando anuncios a un grupo en chamilo 1.9.0 (Announcement bug)

31/08/2012 14:27 - Pablo Gamez

Status:	Bug resolved	Start date:	31/08/2012
Priority:	Normal	Due date:	
Assignee:		% Done:	50%
Category:		Estimated time:	0.00 hour
Target version:	1.9.2	Spent time:	0.60 hour
Complexity:	Normal	SCRUM pts - complexity:	?
Description			
Hola!			
Cuando intento enviar un anuncio desde el menú principal a un grupo en chamilo 1.9.0, envía el anuncio solo a los componentes del grupo y el correo a todos los componentes del curso (tanto en red social como correo electrónico).			
Si entro en un grupo y desde ahí envié la notificación no sucede este problema y solamente envía tanto el anuncio como el correo a los componentes del grupo.

Should fix bug when sending announcements see #5394

History

#1 - 04/09/2012 09:46 - Pablo Gamez

Reparado por mi compañero programador. Error al hacer las búsquedas en el fichero /main/announcements/announcement_email.class.php

La funcion public sent_to no hacia bien la consulta a quien se envía

```
public function sent_to()
{
    $sent_to = $this->sent_to_info();
    $users = $sent_to['users'];
    $users = $users ? $users : array();
    $groups = $sent_to['groups'];

    if ($users) {
        $users = UserManager::get_user_list_by_ids($users, true);
    }

    if (!empty($groups)) {
        $group_users = GroupManager::get_groups_users($groups);
        $group_users = UserManager::get_user_list_by_ids($group_users, true);
        $users = array_merge($users, $group_users);
    }

    if (empty($users)) {
        $users = self::all_users();
    }
}
```

- Target version set to 1.9.2

#5 - 04/09/2012 16:21 - Yoselyn Castillo

- Status changed from Needs testing to Bug resolved

- Assignee deleted (Yoselyn Castillo)

Tested! It works fine.

I have created 2 users.

In a course I have added these two users.

Later I have created a new group, with only one of those users.

I have sent an announcement to the group.

It was only received by the user inscribed in the group.

I have inscribed the other user too.

I have sent an announcement to the group.

It was only received by the two users of the group.
