### Description

In the function that creates the demo content (and a few other functions), there are a lot of NOW in use for the SQL queries. This could trigger a considerable confusion when filling a portal. For the first few hours, content could appear as created hours before or after.

### Associated revisions

**Revision 106a252a - 01/09/2015 17:36 - Yannick Warnier**

Remove remaining now() call in course.lib.php - refs #5405

### History

**#1 - 20/09/2012 17:10 - Julio Montoya**

- Target version changed from 1.9.4 to 2.0

I moved the functions from add_course.lib.inc.php to in course.lib.php and install.lib.php, because we have only 1 database structure so the script will be executed only 1 time. This changes were added in the 1.10 branch

**#2 - 01/09/2015 17:38 - Yannick Warnier**

- Status changed from New to Bug resolved
- Assignee set to Yannick Warnier
- Target version changed from 2.0 to 1.10.0
- % Done changed from 0 to 100

Fixed last now() in course.lib.php
