In the file: `chamilo3/application/webcms/course/php/lib/course_manager/component/browse.class.php`  
the following should code be added:

```
/**
 * Returns additional parameters that need to be registered and are used in
 * every url generated by this component
 *
 * @return String[]
 */
function get_additional_parameters()
{
    return array(self :: PARAM_CATEGORY_ID);
