

Chamilo LMS - Bug #5603

Import user in groups (from CSV file) is broken

05/10/2012 10:55 - Christophe J

Status:	Bug resolved	Start date:	05/10/2012
Priority:	Normal	Due date:	
Assignee:	Julio Montoya	% Done:	100%
Category:	Users/Groups	Estimated time:	1.00 hour
Target version:	1.9.6	Spent time:	0.40 hour
Complexity:	Normal	SCRUM pts - complexity:	?

Description

There is two bug in Chamilo 1.9.2:

- In main/admin/usergroup_user_import.php; in method "function save_data(\$users_classes)":
The return statement must be outside of the foreach loop.
Be nice also to replace "\$message = Display..." by "\$message .= Display.." (the first one).
- In main/inc/lib/usergroup.lib.php; in method "public function get_id_by_name(\$name)":
The syntax for the where condition of the select statement is wrong: it must be:
"Database::select('id', \$this->table, array('where' => array('name = ?' => \$name)), 'first');"

#2 - 05/10/2012 11:20 - Julio Montoya

Hi Christophe!
Thanks for reporting, I sent the fixes for chamilo 1.9.4

#3 - 05/10/2012 11:20 - Julio Montoya

- Status changed from Assigned to Needs testing
- Assignee deleted (Julio Montoya)
- % Done changed from 0 to 50

#4 - 20/01/2013 00:18 - Yannick Warnier

- Target version set to 1.9.6

#5 - 15/02/2013 22:50 - Julio Bonifacio Aliaga

- Category set to Users/Groups
- Status changed from Needs testing to Bug resolved
- Assignee set to Julio Montoya
- % Done changed from 50 to 100

I tried it and it works very well with the changes applied, step to close this task.
