

Chamilo LMS - Bug #5634

GRB - Adding a group to an announcement, we don't see the number of users in the group

Description

Hi,
I've got a course with some groups.
I want to add an announcement, I see my course groups when I want to choice the recipient of my announcement, but I don't see the number of user of each group, like before.
See attached

(we still have the problem of too narrow select box)

Ok, that's fine for the number of users in a group
I think we should see all groups, even if there empty or not.

(see related <http://support.chamilo.org/issues/5635>)

#4 - 22/10/2012 13:19 - Julio Montoya

hi there,
You want to send announcement to an empty group?

#5 - 22/10/2012 14:21 - Hubert Borderiou

Hi,
your question is justified.

I don't want to send an announcement to an empty group, because the group is ...empty ;-) but I am aware of it because I see the number of user in a group in the list.

I want to send an announcement to a group, or some groups, and the fact that a group is empty is a second information.

In the group list, I know how many people there are in my list, so when I pick up groups for the announcement, I know if a group is empty. And even if I send an announcement to an empty group, it will be without consequence.

I think we don't have to shorten or filter this list because we think it's going to be better or easier.

It is quite disturbing not to see all groups in the list, otherwise we force teacher to wonder why some has disappeared

"Ok, this is my group list, but I don't recognize it... it misses some of my groups... a bug ? why ? I check... .. oh, these groups are empty ? may be that's why I don't see them in the group list ? don't have time to think about it..."

It is a good thing that the teacher recognize the organization of his course. If he creates a new group in the Group tool, he sees it instantaneously in other tools, he recognize the structure of his course in each tools. That's important, I think.

Giving him the number of people for each group is perfect.

Done

<http://code.google.com/p/chamilo/source/detail?r=29fdfa04cf75e38173d7afd9e198302845981559&name=1.9.x&repo=classic>

Empty groups are displayed and are disabled in the menu.

#8 - 26/10/2012 15:45 - Yoselyn Castillo

- Status changed from Needs testing to Assigned

- Assignee changed from Hubert Borderiou to Yoselyn Castillo

checking...

#9 - 29/10/2012 15:52 - Yoselyn Castillo

- File announcement.png added

- Assignee changed from Yoselyn Castillo to Julio Montoya

Groups are displayed with the correct number of users

Empty groups are displayed and are disabled in the menu, But when you try to add a group with 0 users again you can do it, see the attachment, i have added group with 0 users.

I think that the option "Group X users 0" should be disabled:

Something like:

```
<option disabled="disabled" value="volvo">Volvo</option>
```

see http://w3schools.com/html5/att_option_disabled.asp

#11 - 30/10/2012 14:41 - Hubert Borderiou

Hi, it is disabled in Test Platform which not use minified js files.

I put a comm in the googlecode file "Hi didn't send the resources/js/main.js minified."

In a Prod Platform, it stil uses the previous file resources/js/main.min.js

You need to minify the file resources/js/main.js before using it.

You can test the fix changing your platform to test mode.

#12 - 23/11/2012 16:34 - Hubert Borderiou

- Subject changed from Adding a group to an announcement, we don't see the number of users in the group to GRB - Adding a group to an announcement, we don't see the number of users in the group

- Priority changed from Normal to High

#13 - 23/11/2012 19:44 - Julio Montoya

- Status changed from Assigned to Needs testing

- Assignee changed from Hubert Borderiou to Yoselyn Castillo

I deleted the minified version, now we use always the main.js version

For managing minify js see [#4757](#)

So now it could be tested.

#14 - 26/11/2012 15:09 - Yoselyn Castillo

- Status changed from Needs testing to Assigned

Results of my test:

I have a course with 3 groups

1 group has 1 user

2 groups have 0 users

I created an announcement

i can't send the announcement to groups with 0 users because they are disabled in left listbox(that's ok)

I selected to send the announcement to the group with 1 users, but later i realized it was not correct and i removed that group from the right list(with << arrow)

Later that group is disabled too in left list like groups with 0 users

In brief, when you remove a group from right listbox it becomes disabled in left list

Hi Yoselyn,

Please review the latest test case from Hubert and, if everything works well, please close (Bug resolved). Thanks

#19 - 28/12/2012 01:06 - Yannick Warnier

Yoselyn, this one is relatively urgent.

#20 - 28/12/2012 16:26 - Yoselyn Castillo

- Status changed from Needs testing to Bug resolved

it works fine now.

I have a course with 2 groups

1 group has 2 user

1 groups have 0 users

I created an announcement

i can't send the announcement to groups with 0 users because they are disabled in left listbox(that's ok)

I selected to send the announcement to the group with 1 user

later i could removed that group from the right list(with << arrow)

The same happens with users.

So it can be closed
