<b>Target version:</b>	2.0	<b>Spent time:</b>	0.00 hour
<b>Complexity:</b>	Normal	<b>SCRUM pts - complexity:</b>	?

#### Description

It would be great if we could have something to make visible or invisible the pdf icon that is showed next to each scorm lesson, because when we are using an flash scorm lesson or an scorm package with multiple scos teh icon is useless because it exports nothing and it adds confusion to the students because they think that they will get all the theory in a row by clicking on that icon.

I think this change will make that area of teh course more easy to use.

#### History

##### #1 - 24/12/2012 09:49 - Yannick Warnier

- Target version changed from 1.9.4 to 2.0

This should be an option in the learning path itself then.  
Something like:

"Allow learners to download as PDF" Yes/No

In the lp table, add a "pdf\_export tinyint default 1" field. Moving to 1.10 for the DB change

##### #2 - 06/03/2013 11:09 - Noa Orizales Iglesias

Please add this feature to the Chamilo LMS core development. If necesarry Contidos Dixitais will fund the cost of implementation.

##### #3 - 06/03/2013 22:12 - Yannick Warnier

We cannot add this to core for now because if the database change. we an add it to your customer portal for now, but it will have to wait for 1.10 to appear in core for the general public.

dev note: set to 0 by default when type is scorm

##### #4 - 07/03/2013 11:06 - Noa Orizales Iglesias

No problem It can be added on the 1.10. what I wanted to say is that I wanted to have it in future version, but it does not matter if we have to add it for 1.10

##### #5 - 09/04/2014 00:24 - Noa Orizales Iglesias

- Status changed from New to Assigned

- Assignee set to Yannick Warnier

Yannick, is this developed already? If not, I can assign Roberto for this tasks to do it for Chamilo 1.10. Let me know please.

##### #6 - 20/06/2014 14:54 - Noa Orizales Iglesias

- Due date set to 20/06/2014

- Status changed from Assigned to Rejected - Abandoned

El desarrollo de esta funcionalidad está aquí: <https://support.chamilo.org/issues/7117> Así que cierro esta tarea.
