#### Description

This is generating a lot of errors in our logs.

See <https://github.com/twitter/bootstrap/issues/6287> for a source.

These should be put (I think) at the base of main/css/

Julio (M), do you know anything about why these files wouldn't be there?

Removed all references to Glyphicons from Bootstrap CSS for obtrusive licensing terms - refs #6049

I remove it because you need to add a glyphicons attribution. Something like:

"Glyphicons Free licensed under CC BY 3.0." in the footer.

But I checked again and as announced here:

<http://glyphicons.com/glyphicons-licenses/>

we can just added it in the documentation page, not sure about that...

##### #2 - 29/03/2013 14:44 - Hubert Borderiou

We should put it in the documentation page, and somewhere reachable from the web site.

May be just a link somewhere opening a popup with the link.

(<http://www.vistaico.com/> fot AntiPlagiat icon ?)

The right place to put this is documentation/credits.html. At the very end. It's not like most of the value of our software comes from their icons... It doesn't have to be first (but it's always publicly available on any chamilo site).

##### #4 - 29/03/2013 15:39 - Yannick Warnier

If possible, indicate the exact source and author for every image source.

We have to put the link in the footer is mandatory apparently:

<http://glyphicons.com/glyphicons-licenses/>

GLYPHICONS FREE

are released under the Creative Commons Attribution 3.0 Unported (CC BY 3.0). The GLYPHICONS FREE can be used both commercially and for personal use, but **you must always add a link to glyphicons.com in a prominent place** (e.g. the footer of a website), include the CC-BY license and the reference to glyphicons.com on every page using GLYPHICONS.

This is the license:

<http://creativecommons.org/licenses/by/3.0/deed.en>

**#6 - 27/04/2013 18:51 - Roberto Gonzalez**

Indeed the glyphicons images have been removed and bootstrap.css doesn't reference any of them any longer, so the task can be closed, I believe.

**#7 - 29/04/2013 04:30 - Yannick Warnier**

- *Status changed from Needs more info to Bug resolved*

- *% Done changed from 0 to 100*

OK, thanks for the investigation. I have completely removed all references to glyph in all bootstrap.css.
