

Chamilo LMS - Feature #6224

Default login language should depend on the browser user-agent if set

17/06/2013 16:14 - Jérôme Warnier

Status:	Rejected - Abandoned	Start date:	17/06/2013
Priority:	Low	Due date:	24/04/2014
Assignee:	Yannick Warnier	% Done:	100%
Category:	Global / Others / Misc	Estimated time:	0.00 hour
Target version:	2.0	Spent time:	0.00 hour
Complexity:	Normal	SCRUM pts - complexity:	?

Description

Currently, right after an installation, the login page defaults to russian or so (cyrillic chars). It should try to detect the default browser language and automatically set it.

The rationale behind this is that even if the language is not customers, a least there is a great chance he could at least read the default.

It is low priority, though.

- Category set to Global / Others / Misc

- Status changed from New to Assigned

- Assignee set to Kenny Rodas

- Target version set to 1.9.8

I think there is something to detect browser language and select it, but apparently it's not working at the moment.

Kenny, can you check this one?

I think is better to move this task to Chamilo 10, otherwise this will to be developed twice, for 198 and 10 not the same code.

#7 - 25/04/2014 19:15 - Yannick Warnier

- Status changed from Needs more info to New
- Assignee deleted (Yannick Warnier)
- Target version changed from 1.9.8 to 2.0

OK. Moving to v10

#8 - 14/06/2014 19:55 - Yannick Warnier

- % Done changed from 0 to 20

In the end I added it in 1.9.8 as well. Leaving it in v10 to be re-developed. See [53764f5](#)

#9 - 04/03/2015 13:16 - Jérôme Warnier

- Status changed from New to Assigned
- Assignee set to Yannick Warnier

#10 - 04/03/2015 14:41 - Yannick Warnier

- Status changed from Assigned to Rejected - Abandoned
- % Done changed from 20 to 100

I'm closing this task. It is already very actively used in 1.9.10 and will be maintained in 1.10.x. Supporting it in 2.0 is just a matter of feature continuity.
