Description

Hi dear dev team !!!

Maybe it already exists, but if so, there would be a minor bug existing :)
I can't find the option to disable completely the file upload for trainees.

Regardless the settings, if the trainee goes to Social Network from his profile, He's still able to upload files.

In the meantime, this shouldn't affect the ability to modify the "Avatar" (I'm not sure, writing this if the same upload part/rights is used).

Thanks in advance.
