

Courses - Bug #6359

import in doc tool

05/07/2013 10:39 - steven van loo

Status:	Needs testing	Start date:	05/07/2013
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	LCMS 4 Beta	Spent time:	0.00 hour
Complexity:	Normal		
Description			
import in doc tool results in fatal error			
see img in att			
Win 7 ie9			
http://portaal.ehb.be/evh/index.php?application=weblcms&course=3&tool=document&go=course_viewer&browser=table&tool_action=publisher&viewer_action=importer&import_type=zip			

History

#1 - 19/07/2013 10:41 - Sven Vanpoucke

- Status changed from New to Needs testing

This should be fixed in latest code.

#2 - 19/07/2013 11:04 - steven van loo

- File testingChamilo.zip added

- File importNeedstesting.jpg added

No more fatal error

BUT

Alert: Object not imported (see att)

New category made if chosen to make new category, but no content imported

New category not made if name if zipfile should have generated an new category, no content imported

Note: the testzip only contains a few small jpg's
