peer assessment after merge: latest commit 27/04

09/09/2013 10:51 - Anonymous

Status:	Bug resolved	Start date:	09/09/2013
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	LCMS 4 Beta	Spent time:	0.00 hour
Complexity:	Normal		

Description

I suspect there has been a wrong or incomplete merge in the peer assessment repository.
The latest actual commit is dated 27/04/2013

The original repository <https://bitbucket.org/chamilo-archive/chamilo-app-weblcms-peer-assessment-dev> contains more recent commits than that (may, june, july and august)

History

#1 - 10/09/2013 22:48 - Ludwig Theunis

- Status changed from New to Needs testing

Hi,

The merge wasn't executed at all.

So I have just merged the dev repository with the stable. So you should not be able to pull the latest commits..

#2 - 11/09/2013 08:31 - Anonymous

- Status changed from Needs testing to Bug resolved

I pulled the default branch: it worked, thanks!
