Target version:	1.8.6.2 stable	Spent time:	1.00 hour
Complexity:	Normal	SCRUM pts - complexity:	?

Description

Hi,
There's a bug in the forum-tool of our Chamilo-installation. This problem also appears on the demo-campus. Conclusion: it's a bug in the chamilo-code.

Problem:

When you post a forum topic, the lay-out/links, images, movies disappear after clicking on the edit thread button.
When you edit a forum post you can see the images/movies/flash but when you save they are not displayed.

I posted this problem on the chamilo.org/1.8.6.2/general-forum. Can we stay informed about the progress on that forum?

History

#1 - 08/03/2010 17:17 - Julio Montoya

- Status changed from New to Assigned
- Assignee set to Arthur Portugal

Arthur can you please check this issue

#2 - 11/03/2010 21:17 - Jhon Hinojosa Portuguez
