- File *install-hangs-at-step-10-after-webservices* added

upload one more screen shot

#2 - 28/01/2014 14:52 - jingzhou wang

alarm off, I updated `/var/www/core/user/php/lib/user_manager/user_manager.class.php` (which had been locally changed due to the previous change on `MetadataManager`) to the latest version in mercurial, and the installation passed.
