Target version:	LCMS 4 Beta		

Description

download and install the latest LCMS version (core 3582:ac50465bdbe9 repository 1481:ea39137a2333)

create several external under "Administration" --> "Repository" --> "Manage external content connectors" --> "Add external connection" (see attachment)

go to "Repository" --> "Create", the corresponding external content object types (BBB, Picasa, WikiPedia in this case) had not displayed (see attachment)
