I made a mistake. The "for" attribute must be relative to an ID.  
The user login form is located in userportal.lib.php (look for "login").

I did some tests adding an "alt" for the course icons, but then it complains these look like decoration images and shouldn't have an "alt" attribute :-)

This URL should be tested as well (course homepage): <https://stable.chamilo.org/courses/00AICC00/index.php>  
I just checked and it works as well. Closing.
