**History**

**#1 - 04/05/2014 17:21 - Yannick Warnier**

OK to remove it (although I expect some people to protest to that decision), but we should really try, in the future, to implement something that covers this feature, as one of our fields of expansion now is to start managing more administrative aspects of the institutions.

**#2 - 04/05/2014 17:33 - Julio Montoya**

- Status changed from New to Needs testing
- % Done changed from 0 to 90

Agree to implement this feature. A new ticket should be created if somebody wants this feature.

If people like that tool they can still use it in 1.9.8 :)

I agree to remove it for now. We'll still have it in the code and it will still be possible to implement it again using the legacy code as a basis or just re-write it. I believe it should be more or less a 2-weeks development work to add it in much better shape. Database tables should not be created through a new installation then. Did you already remove them? The upgrade should maintain them, though (considering there might be important data there).

**#4 - 02/03/2015 10:37 - Julio Montoya**

- Status changed from Needs testing to Needs more info
- Target version changed from 2.0 to 1.10.0

What about removing this in 1.10??

**#5 - 02/03/2015 14:31 - Yannick Warnier**

- Category set to Plugins
Agreed. Please eradicate!
