

Chamilo LMS - Feature #7185

Integrate Google Drive for documents download

12/06/2014 16:01 - Yannick Warnier

Status:	Assigned	Start date:	12/06/2014
Priority:	Normal	Due date:	
Assignee:	Angel Quiroz	% Done:	0%
Category:	Documents	Estimated time:	0.00 hour
Target version:	2.0	Spent time:	0.00 hour
Complexity:	Normal	SCRUM pts - complexity:	?
Description			
Integrate Google Drive into Chamilo so that a teacher wanting to upload or download a document can choose to do it from/to drive.google.com.			
Ideally, the connector itself would integrate to the main/inc/lib/fileUpload.inc.php (and download) library, so that we can reuse it from documents, dropbox, wiki, tasks, etc (from anywhere :-))			

History

- Status changed from New to Assigned
- Assignee set to Angel Quiroz

This should first be developed as a plugin for 1.9.8, with the minimum possible changes in the core code, and only integrating it with the documents tool. Check the screencast plugin to get ideas on how to integrate.

Ideally, the Google Drive browser should show as a modal window.

It is possible that OAuth2 should be necessary to implement this. Whatever is the result of the first investigation, we **need** it to be reported here so if abandoned for now, we can start working later on the basis of the previous investigation.
