Alex, en la herramienta de encuestas, los iconos son todavía en .gif. He cambiado las referencias de las que ya cambiaste en ejercicios, pero hay que hacer una nueva versión para los demás iconos (no te olvides de subir también una versión _na.png)

ok.
Mais ao criar uma pesquisa. Com uma imagem. Ela não aparece.
Crie uma pesquisa e coloque uma imagem. A imagem não vai aparecer.
Testei na versão beta.1. E continua o mesmo problema
A pesquisa só pode ser feita com texto. Se colocar alguma imagem junto, ela não vai aparecer.
Saudações,
Marcelo Bassuma

Hi Marcelo,

This is a different problem than the original. Please report it in another task. It will **not** be fixed in 1.9.10, though, so please leave the "Target version" field empty.
It only happens with surveys with an invitation code, because the user enters as anonymous and the image is inside the course, protected by privileges.

The original problem has now been fixed. Thanks for reporting and testing!
