

Chamilo LMS - Support #7389

Feature # 6036 (Feature implemented): OpenBadges

OpenBadges Use Case diagram with high-level features

11/11/2014 16:55 - Arturo Mora-Soto

Status:	Feature implemented	Start date:	21/09/2014
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:		Estimated time:	4.00 hours
Target version:		Spent time:	4.00 hours
Complexity:	Normal	SCRUM pts - complexity:	2
Description			

History

#1 - 11/11/2014 17:05 - Arturo Mora-Soto

- File *use-cases-ob.pdf* added

- File *Chamilo Open Badges Plug-In.vpp* added

I attached the use case diagram in Visual Paradigm format and PDF format. This diagram was a first draft of the functionalities for the Chamilo Open Badges Plug-in; these functionalities were extended in the User Stories subtask.

#2 - 11/11/2014 17:06 - Yannick Warnier

- Tracker changed from *Feature* to *Support*

- Subject changed from *Use case diagram with high leve features* to *OpenBadges Use Case diagram with high-level features*

Cambiado a tipo "Support" para que no inflencie las funcionalidades a integrar directamente.

#3 - 11/11/2014 17:10 - Yannick Warnier

The "Answer Test" element would be beneficially replaced by "Complete objectives", as the mechanism is already there to do that with skills. Linking it to tests directly is a shortcut that would be very costly in development at this stage.

The rest is fine.

#4 - 17/02/2015 23:51 - Arturo Mora-Soto

- Status changed from *Assigned* to *Feature implemented*
