Description
In the welcome message, there appears the word "Formula" instead of "Sincerely", as it happened in previous versions.

The word "Formula" has no sense in the message and it causes confusion

I think the problem is that the lang variable was changed from "langFormula" to "Formula"

Use new variable for signature formula - refs #7426

History
#1 - 27/11/2014 19:06 - Laura Guirao
More info:
in "main/lang" folder, there are two files with the same variable "Formula"
trad4all.inc.php --> $Formula (line number:71)
registration.inc.php --> $langFormula (line number: 75)
In the welcome message, it appears always the $Formula value
